For this 2019 edition of Panorama, dedicated to PPPs, it should be noted that partnership refers to close collaboration between parties from different sectors that have common interests. This requires actively building links between the various participants who, while maintaining their autonomy, agree to pool their resources to achieve a common goal. Each party retains its mission but shares responsibilities.

WOAH (founded as OIE) is a global organisation, working to ensure the health of animals across the world. Since 1924, we have focused on the complexities of animal health. We disseminate information on animal diseases and use science-based strategies to limit their potentially negative impact on society.
