Animal health

World Organisation
for Animal Health
Founded as OIE

bulletin.woah.org

After careful consideration of information provided by the Delegate of Kazakhstan to the World Organisation for Animal Health (WOAH) to the Scientific Commission for Animal Diseases (Scientific Commission) to assess the country's compliance with the *Terrestrial Animal Health Code (Terrestrial Code)* provisions for the maintenance of its 'classical swine fever (CSF)-free' status, the Scientific Commission concluded that Kazakhstan does not fully comply with the requirements of Article 15.2.3. of the *Terrestrial Code*. The 'CSF-free' status of Kazakhstan as recognised by the World Assembly of Delegates in terms of Resolution No. 18 in May 2022, is suspended with effect from 14 June 2022.

WOAH (founded as OIE) is a global organisation, working to ensure the health of animals across the world. Since 1924, we have focused on the complexities of animal health. We disseminate information on animal diseases and use science-based strategies to limit their potentially negative impact on society.
