EXPERT REPORTS

ANIMAL HEALTH

This is the third evaluation of the Global Framework for the Progressive Control of Transboundary Animal Diseases (GF-TADs) and covers the period from 2009 to 2017.

The evaluation aims to provide the GF-TADs Global Steering Committee and Management Committee with lessons learned and evidence which can be used to inform its future strategic development by providing recommendations to guide GF-TADs' enhanced collaboration at regional and global levels and encourage the improvement of the GF-TADs' tools. The evaluation examined the added value of GF-TADs as a mechanism to facilitate collaborative work between the Food and Agriculture Organization of the United Nations (FAO), the World Organisation for Animal Health (OIE) and TADs partners in addressing global risks from TADs.

Joint FAO–OIE Evaluation of the Global Framework for Transboundary Animal Diseases (GF-TADs), October 2018:

- [Main report](#)
- Annex 1. [Terms of reference](#)
- Annex 2. [Survey results](#)

GF-TADs is a joint governance mechanism of FAO and the OIE launched in 2004 to achieve coordinated prevention and control of TADs, and in particular to address their regional and global dimensions.
