April 2020

330 pages

ISSN: 0253-1933

ISBN: 978-92-95115-56-9

DOI: <https://doi.org/10.20506/rst.issue.39.1.3056>

The intention of this issue of the *Scientific and Technical Review* is to present a series of articles that assist World Organisation for Animal Health (OIE) and World Trade Organization (WTO) Members and the international community interested in trade in animals and animal products to better understand the frameworks created by the WTO trade agreements and OIE international standards, both through the discussion of the theory underpinning these standards/agreements and by providing examples of their implementation.
