

Happy retirement to Dr Elisabeth Erlacher-Vindel

In October, colleagues bade farewell to Dr Elisabeth Erlacher-Vindel, Head of the Antimicrobial Resistance and Veterinary Products Department. Dr Monique Éloit thanked Elisabeth for her many years of service and highlighted her achievements, in particular her role in bringing forward the OIE's work on antimicrobial resistance. Elisabeth reflected on her time at the Organisation, which has included working for multiple departments, under two Directors General, and a total of five different positions. She shared what she had found special about working for the OIE: working for a public good, the opportunity to exchange with colleagues around the world, and the sense of being part of an OIE family that is shared by many of us. Elisabeth also noted that she is looking forward to continuing her collaboration with the OIE in her retirement to follow up on some specific research projects.

We wish her all the best for her new adventures, moving to Rabat and taking on her recent role as a grandmother!
