

# Capacity-building activities of the World Organisation for Animal Health to improve the implementation of animal welfare standards (Section VII of the *TAHC* and *AAHC*)

## Enabling capacity-building environment:

- Global WOAHAW strategy (capacity building pillar)
- Global WOAHAW 2022-2023 Work Plan
- Regional AW Strategies and Operational Plans
- WOAHAW Platform for Europe Action Plan
- Training Guidelines
- **WOAH Collaborating Centre Network for AW**
- **WOAH Observatory**

A

**PVS evaluation** – results analysis  
(CC II.13) – All standards  
**Self-Assessment and Monitoring  
Tool** results – Standard 7.7

B

Identify  
training  
needs

WOAH Competency-Based Training  
Framework: **1 Competency  
Package for AW (CP7)**

C

Training  
cycle

Design the  
training

**Development of E-modules:**

- Reptiles
- Pig production

**Labelling of existing modules:**

- Working equids (ICWE)
- Stray dog population  
management (ICFAW)

D

Evaluate the  
training

Deliver the  
training

## Trainings:

- WOAHAW Focal Points
- Other targets (disaster management,  
stray dogs, transport, etc.)

E

↑ Implementation

Impact

**Standard-  
setting  
process**  
- AW Flash  
meetings

F
